me@mikemason.dev | 508 215 8240 | www.mikemason.dev | github.com/masonmike2001

EDUCATION AND CERTIFICATIONS

Western Governors University, Salt Lake City, UT
Bachelor of Science in Computer Science

2025

Certifications: ITIL 4 Foundation • LPI Linux Essentials

SKILLS

Languages: Java • Python • TypeScript • SQL

Frameworks: Spring Boot • React • Flask

Tools: PostgreSQL • Git • Docker • Podman • Postman • Linux

Concepts: REST APIs • CI/CD • Unit Testing

PROJECTS

Novel Outliner

2026

github.com/masonmike2001/novel-outliner

Developed and deployed a full stack Spring Boot/React web application using REST APIs to generate modular story structures and calculate chapter word-count targets based on form variables.

- Designed a dual-PostgreSQL container architecture using Podman to isolate static schemas from temporary session data.
- Built secure Spring MVC endpoints for session-specific payload handling and data protection.
- Upgraded initial Thymeleaf architecture with a React/TypeScript frontend to improve interactive calculation and display.

Obsidian AI Plugin

2026

github.com/masonmike2001/astrollama

Developed an offline Obsidian plugin using TypeScript and the Ollama API for facilitating local AI conversations and note generation.

- Designed plugin architecture integrating Obsidian events with local LLM inference.
- Built a prompt workflow engine supporting configurable models, context folders, and automated wiki templates.
- Engineered a local-first design eliminating external API dependencies while improving privacy and latency.

PROFESSIONAL EXPERIENCE

FIDELITY INVESTMENTS, Merrimack, NH

2024 – Present

Financial Customer Associate II

Member of a fifteen (15) person team that resolves technical support requests and customer issues on pension and 401(k) plans for an assigned set of employers. Utilize an internal request workflow to facilitate rapid response and resolution for service requests and processed high precision transactions and pension initiations.

- Served as team point of contact for complex 401(k) research requests, consistently meeting SLA targets.
- Mentored teammates on solving complex technical issues using browser developer tools and device simulation.
- Maintained a 100% safeguard rating through strict adherence to compliance standards.
